RE: Crime Analyst Position

Congratulations on being selected to participate in the Crime Analyst Selection Process. For this process, you have been assigned an ID # (shown above) to use during the assessment. We have scheduled you to participate in our assessment process on \_\_\_\_\_ (date). The assessment process will consist of the following: 1) problem analysis exercise, 2) training presentation, 3) structured panel interview, and 4) a GIS mapping exercise. For items 3 and 4, instructions will be given on the day of the assessment. For item 2, training presentation, you will need to prepare in advance as follows.

Enclosed in this packet is a CD with actual training slides from a recent Advanced Problem Analysis, Crime Analysis, & Crime Mapping Training conducted by the Police Foundation’s Crime Mapping & Problem Analysis Laboratory. Only two of the original sections are included on this CD: (1) Intro to Crime Analysis, Problem Solving, and Problem Analysis, and (2) Descriptive Spatial Analysis.

Your objective is to prepare to present a 30-minute training session during your assessment process here at the \_\_\_\_\_ on \_\_\_\_\_ (date/time). Use only the slides that you feel should be included. In addition, you will be given 10 minutes preparation time before your 30-minute training segment. We will provide a laptop and PowerPoint projector for you. Your audience for this particular training session is introductory level participants who have little, if any, knowledge about crime analysis, crime mapping, and problem solving. There will be \_\_\_\_\_ (insert number) employees who may offer questions after your presentation. Again, feel free to leave out any slides so that your presentation runs close to the 30-minutes allotted for this exercise. You may save your training presentation on either a flash drive or preferably a CD to bring in on the day you present.

If you have any questions about this training exercise, please contact \_\_\_\_\_ at \_\_\_\_\_ (phone).
