**Chief Jack Ewatski,  
President, Canadian Association of Chiefs of Police**

**Police Information and Statistics (POLIS) Committee  
Annual Report 2005/06**

**Message/Executive Summary:**

The POLIS Committee has extensive representation from police agencies across Canada as well as members from Public Safety Canada and Justice Canada. It is strongly supported by and enjoys an excellent working relationship with the Canadian Centre for Justice Statistics (CCJS) and has a formal linkage to the national Justice Information Council (JIC) through representation on the Liaison Officers Committee (LOC). Its work often proceeds slowly as changes to data gathering and reporting have long-reaching impacts. The POLIS Committee contributes value through the opportunity to develop, improve and deliver accurate statistical and analytical information to the Canadian public, police and government to better understand our environment with respect to offending, victimization and policing, and to thereby facilitate strategic decision making, policy development and resource allocation.

**Committee Mandate/Objectives:**

Vision:

Quality data for quality policing

Mission:

POLIS supports progressive change in policing, in partnership with the Canadian Centre for Justice Statistics (CCJS) and other partners, through the development and communication of meaningful public safety information.

Mandate/Objectives:

- Represent the police community in ensuring that emerging police issues, priorities and concerns are addressed by CCJS surveys and products;
- Facilitate the development of partnerships among governments and criminal justice agencies to further the integration of justice information systems;
